Columbia
COMPASS

Envision 2036

In 2036, my Columbia is...

A PLACE
OF SAFETY

Sustainable!

Investment in
Dorland Area
Bunker Heights
- Better Policing
in the area
- Grocery Stores

In 2036
if cities were all
operated the same
checked the same
✓ Policing & Schools
✓ Clean up
✓ Infrastructure
✓ Police - etc

The envy of
Charleston &
Greenville
♡

a city with
economic stability
and plentiful industry
for all areas of
the city!

lots of diverse activity
and growth across
all sectors, not
just concentrated downtown
and getting
around the city via
public transportation
roads, especially
walking paths, I think

I want the north
Columbia area of
the city to grow like
business opportunity like
Spartan as the north
Sprink focus on the
growth in the African
American section of the
city

I would like
to see the
participation of
youth from the quarter
in helping to build
the community
and especially
working with young
people.

Develop business
development in
areas that are
not as prosperous
as in the past.
- Make it look like

Innovation + growth
in the business
community

More job opportunities
for young people in the
Greenview Community

Columbia will
have managed
its growth especially
while preserving
its character
providing for a rich
community that enjoys
the city.

Better
Transportation
Service

Additional
businesses
on Farrow Rd

THE place
to be in
South
Carolina!
